

## SURROGATE OR REMOTE TESTING

*“Everything is energy and that’s all there is to it. Match the frequency of the reality you want and you cannot help but get that reality. It can be no other way. This is not a philosophy, this is physics” - Albert Einstein*

Kinesiology muscle testing takes the guess work out of medicine and accurately reveals the root cause trigger of any physical disease, or emotional issue.

### **How does the surrogate process work?**

When you act as a surrogate for someone else in a Kinesiology session we set the session up so that you energetically step into the other person’s energy. (This is always done with the permission of the other person where possible). Person A energetically becomes person B so that the muscle testing is that of the person B not the individual being tested. This may seem unusual however it can and does work.

When would you use a surrogate?

There are times it is not possible or practical to work on the client in need of the Kinesiology treatment.

### **Surrogates are used when:**

- The person cannot physically attend the clinic
- Doing Distant/Remote healing - I become the surrogate
- The person does not live in the local area
- The client is a baby or toddler and having them lie still may be difficult
- The client is elderly or weak
- Working with animals
- The elderly who cannot leave their chair without a great deal of help
- Anyone suffering from an injury which prevents them being able to move
- Young children who cannot yet understand the instructions to “hold” their muscle position

- Anyone who cannot comfortably move in certain positions
- Anyone where language is an issue
- People who are overseas and unable to attend the session

### **The marvels of surrogate testing**

#### **Kinesiology allows You to...**

- Have a direct line of communication with your unconscious mind and Higher Wisdom;
- Detect the exact root cause of your health challenge so it can be effectively treated. •

Make positive changes to your health, eliminating stress and inflammation;

- Discover any food and environmental sensitivities, and eliminate the causes of allergic or sensitivity reactions;
- Find the root cause of traumas or issues which hold you back in life
- Become more in tune with your intuition, and make more empowered decisions;

### **Long-Distance & Surrogate Muscle Testing**

An invaluable tool of Kinesiology is “long-distance” or “surrogate” muscle testing, where I muscle test myself as your surrogate, to receive information from your Energy System. Just as energy (like radio waves) can travel over distances, so can the energy we Radiate from our body, and unconscious thoughts. When the body is harbouring toxins and/or subclinical infections, or misalignment of structure, hormone imbalances, stress, etc the incoherent energy of each of these is held in our personal energy template. Just the same way as testing in person, with remote kinesiology we can challenge your energy system to find the root cause of your health or emotional issues. This allows muscle testing to be done for people who may be thousands of miles away.

Using muscle testing, I am able to accurately identify your physiological, emotional and energetic blockages - the root causes of your disease, distress and what has been preventing you from realizing your health goals. I can then determine the quickest and most thorough way of permanently removing the blockages, and reboot your system using tried and trusted detoxification protocols and nutritional supplements, plus diet and lifestyle changes. On an emotional or psychological level I can help you delete all negative programming and disempowering beliefs quickly and easily using remote EFT, NLP, and Matrix Reimprinting.

After doing your prescribed treatment, I then re-check the areas that were cleared to be sure that the blockages have been completely removed.

**Kinesiology Empowers You to Receive the Answers from Within.**

Remote or Surrogate testing can be done over skype. The initial investigative consultation lasts 90 minutes and is the information gathering and diagnostic session during which I will demonstrate to you what has shown up on your scan, and discuss what this means so you have a thorough understanding of what your body is hampered by, why, and how to remove it. You leave this session with all you need to get started on your personalised treatment program and begin to feel the benefits. Once we remove the blockages to your natural healing ability your body begins to reboot its ability to undo the things which have gone wrong, and your health naturally improves. Following the removal of the blockages to health, we enable the healing process by prescribing specific supplements, dietary and lifestyle changes or treatments specific to your needs. We support you throughout your healing process and celebrate your success!

Experience has proved to me that our body has an infinite capacity to heal. All we need to do is get it out of what is hindering it, and give it a little push in the right direction and it can do the rest itself!

The human body has approximately 70 trillion cells. Every cell in the body is intelligent and communicates with every other cell in the body. If the body can create disease, it can also uncreate disease. Our body has the Answer to your Cure. I can access your body's wisdom for healing with a Meta Health Scan and consultation.
